

How Qualpay's Plugin for WooCommerce Works for You

Last Modified on 06/15/2023 2:38 pm PDT

Qualpay's [free plugin for WooCommerce](#) allows you to easily manage all of your online sales and recurring payments, in one convenient place*. Our Plugin uses Qualpay's Embedded Fields combined with the Qualpay Payment Gateway. The Embedded Fields enable all credit card data to be securely collected on Qualpay's PCI Level 1 compliant servers while maintaining the WooCommerce checkout experience. With Qualpay, you also have access to Qualpay Manager, which allows you to view or interact with your transaction reporting and payment solutions.

The Qualpay plugin for your WooCommerce web store allows you to:

- Accept Visa, MasterCard, American Express, and Discover credit cards for online sales and recurring payments.
- [Configure](#) whether you are processing sales, authorizations, or recurring payments. Easily switch between sandbox and production when ready.
- Safely store customer cardholder data in the [Qualpay Customer Vault](#).
- Take recurring payments with [Qualpay Recurring Billing](#). Simple and quick billing plan creation from the WooCommerce Dashboard or Qualpay Manager.
- Take payments using the WooCommerce Administration Dashboard or the [Qualpay Virtual Terminal](#).
- View all of your transactions with our powerful, detailed [reconciliation report](#).

[Download](#), [install](#), and start [configuring](#) today. After installation, [periodically check](#) for upgraded versions of the plugin.

**[Apply now](#) for a LIVE production Qualpay Account. Once your account is approved, you can access Qualpay Manager and start transacting.*
