

# How the Qualpay Gravity Forms Plugin Works for You

Last Modified on 08/03/2023 4:44 pm PDT

Qualpay's free plugin is an add-on for Gravity Forms. It allows you to build your custom payment forms, and securely accept one-time and recurring payments on your WordPress site. The plugin uses Qualpay's Embedded Fields combined with the Qualpay Payment Gateway to integrate payment processing on your site.

Our Embedded Fields enable all credit card data to be securely collected on Qualpay's servers while maintaining your checkout experience. Qualpay is PCI Level 1 compliant.

With Qualpay, you also have access to the Qualpay Manager. The Qualpay Manager allows you to view and interact with your transaction reporting and payment solutions.

The Qualpay Gravity Forms plugin allows you to:

- Accept Visa, MasterCard, American Express, and Discover credit and debit cards for online sales and recurring payments.
- Safely store customer credit and debit card information in Qualpay's secure PCI-compliant Level 1 [Customer Vault](#) for storing your recurring Customer information, and their transactions safely.
- [Configure](#) your transaction types and recurring payments.
- Quickly switch between Qualpay's sandbox and production environments.
- Decrease late payments and grow repeat business by using [Qualpay's Recurring Billing](#).
- Simply and quickly create billing plans from the Qualpay Manager.
- Authorize and Capture payments from the Qualpay Manager.
- View all of your transactions in the Qualpay Manager's detailed [reconciliation report](#), among many others, using our flexible reporting engine.
- Easily [capture Authorizations](#) and [process Refunds](#) from the Qualpay Manager's Virtual Terminal.
