Last Modified on 06/09/2022 5:37 pm PDT

Now that you have your online store configured to accept payments with Qualpay, you may want to add official logos for the card brands that your account accepts. Only use approved logos supplied by the card brand. Using approved logos complies with all card brand's requirements and Qualpay's own underwriting guidelines for displaying current, approved brand logo images.

Quickly locate approved card brand logos by following the links below. Each card brand's resource page will have many approved trademarks, banners, vector images, and more!
