

Export Qualpay Data to QuickBooks Desktop

Last Modified on 08/03/2023 4:08 pm PDT

Export your [settled](#) Qualpay transactions and adjustments in a format suitable for import into QuickBooks Desktop from Qualpay Manager. The IIF file format is available for import into [QuickBooks Desktop Enterprise](#), [QuickBooks Desktop Premier](#), [QuickBooks Desktop Pro](#), and [QuickBooks Online Plus](#) versions.

You can import Qualpay information about [disputes](#), [sales](#), [refunds](#), [credits](#), and [statement fees](#) applied to your deposit account, into your QuickBooks Desktop account. To export your data from Qualpay Manager:

1. Go to **Reports** and then select **Sync with QuickBooks**.
2. Click the **QuickBooks Desktop** button.
3. Select whether you would like to export *Transactions*, *Adjustments*, or *All* data.
4. Select your date range.
5. Click **Submit**.
6. Select *All Transactions* or *New Transactions*. The first-time you export data, you will only see *All Transactions*. On your second export, you can choose to import all transactions or only transactions that have occurred since your last export.

The IIF file will be downloaded to your machine for import into QuickBooks Desktop. Your imported transactions and adjustments will be located in QuickBooks **Journal Entries**.
