

How To Change MFA Prompt Frequency

Last Modified on 04/10/2023 11:36 am PDT

Click on the down arrow at the top right of the page, then click on ***User Profile***.

In the left-hand side menu, select ***Security***. In the **Multi-factor Authentication** section of the page, click ***Update***.

Select the frequency you want to set your MFA to prompt on login from the drop-down menu. The options available are: *Every Login, Daily, Weekly, or Never (only for new devices)*. Once the frequency is selected, click ***Save***.

You will see that the frequency has been updated and will show the currently set MFA prompt frequency.
