

ACH Payments on the Internet

Last Modified on 04/23/2020 11:26 am PDT

If you're accepting ACH payments over the internet, [NACHA](#) requires that you receive and record consent from your customer. In the event of a disputed transaction, you may be asked to share your proof that your customer consented to the transaction.

Use the below text to obtain your customer's consent.

I authorize to initiate a one-time electronic funds transfer for the payment described above from my bank account under the terms of this authorization on which will be processed on the next business day. This payment can be revoked by calling < your phone number>.
